

Women and Girls in Transportation Initiative

WOMAN AND GIRLS VIRTUAL SYMPOSIA

FREE
EVENT

Join us for a Women and Girls Virtual Symposia. The virtual event will offer insights into academic and internship preparation, as well as professional, career and chance opportunities. A panel of Boeing's female leaders will share their personal journeys, career paths, and offer guidance around best practices for managing professional development. The USDOT Women & Girls In Transportation Initiative (WITI) offers an internship program enabling young women from colleges and universities across the country to participate.

Friday, September 25, 2020
11AM PST | 1PM CST | 2PM EST

BOEING'S FEMALE PANEL DISCUSSION

A panel of dynamic women will discuss their experiences.

OUR PANELIST

ASHLEY ABRIL works in Flight Test Engineering where she gets to create test plans for autopilot system and testing them in the air. Ashley is passionate about helping other minorities get involved with STEM program.

FRANCIS GARCIA-FRITTS has worked in various departments within Boeing; including airline support Engineering, 767 Fleet Chief Office, Customer Engineering and Ed Wells Partnership.

TRACY TOY-VALDES works in Training & Professional Services where she works with airline pilots training to fly Boeing Commercial jets. Tracy fell in love with aviation when she was a WITI intern herself.
