

Skanska Open Office Hours

Every third Monday of the month (one-on-one sessions 3-5 p.m./workshops every other month starting March 2024) @ Tabor100 Office, 7100 Fort Dent Way # 100, Tukwila, WA 98188

Are you interested in working with Skanska but don't know where to start? Do you want to know about upcoming projects or our mentoring program, Construction Management Building Blocks? Schedule time with Courtney Fraga to discuss a variety of topics.

Skanska's supplier diversity program wants to connect with small diversely or veteran-owned businesses engaged in non-residential construction. Our goal is to assist firms in preparation for upcoming bid opportunities and getting set up with our systems. We are offering both monthly in-person 1:1 sessions with interested firms for 30 minutes at a time, or providing small group information sessions on a variety of topics each month with Skanska experts. Some topics we will cover are:

- **BuildingConnected Profile Setup and Bid Forms**
- **Navigating Procore Project Management**
- **Safety Plan Requirements and PlanIt**
- **Insurance COI Review**
- **Prequalification Application Review**
- **Change Order Process**
- **Billings and Payapps**

While these sessions are particular to Skanska programs, they are applicable to many general contracting needs. The intention is to be hands-on working sessions to leave your business more prepared for our next project opportunity. Join us next month to talk shop, upcoming projects and how to get involved. Bring your capability statement!

Please contact Courtney to schedule a one-on-one session.
